1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 8-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Leach (5,612,074, cols. 3-4). Leach discloses a food bar including dry soy protein, dry psyllium husk, liquid, carrot or beet juice powder and herb oil. Since powder is a conventional form of dry soy protein and psyllium husk, it would have been obvious to use the powder form of each as the dry component thereof.
